### MITS Center News

The Courtesy Patrol Database was retrofitted with spatial information on April 16. Now, each overpass or underpass that crosses a freeway has an assigned X and Y coordinate enabling the mapping of each assist that the Freeway Courtesy Patrol performs. This new feature will greatly assist both MDOT and SEMCOG as they seek to identify valuable information from the data.

### Motorist Quote of the Month

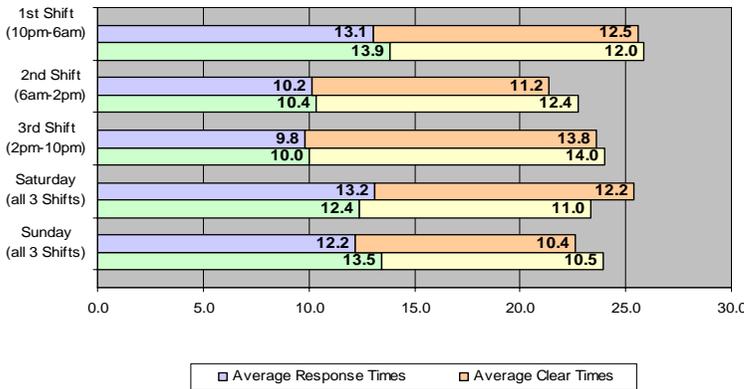

*"Today while driving to work I encountered a flat tire. The Courtesy patrol van was there in less than 2 minutes. The driver was very very helpful and also very nice. The driver changed my tire in record time and imagine my surprise when he informed me there was no charge! What a great program to help motorists and for there safety too!!"*
